- » Foldable mounted guide handle offers superior manoeuvrability and can be lowered to operate under obstacles and close to form work.
- » Reinforced centrifugal clutch ensures longer belt life, and simplified belt adjustment.
- » Lifting points and front lift cage offer easier loading and unloading for operator convenience and heavy contractor usage.
- » Large capacity water tank is built into the protective frame.
- » Angled holes on spray bar allow complete water coverage over the full width preventing any asphalt pick-up on plate bottom.
- » The spraybar is fully protected from damage, easily positioned, with integral paving pad clamp points.

Water Spray Kit Option Available
